Subject: Beginners Cell Phone Class

Interlochen – The senior population has lived through the majority of the Twentieth Century, considered the most technology-advanced century in history, and adapted to the many changes that have occurred during their lifetime. It should come as no surprise that older Americans are now interested in benefiting by technology and have purchased smart phones. Even though seniors – especially those who see their friends, children, and grandchildren using smart phones – want more information on the use of them, they may have no where to get their answers.

Bring your smart phone or Tracfone and your questions to a beginners cell phone class on Monday, May 15, at 11:30 a.m. in Interlochen's Golden Fellowship Hall, 9700 Riley Road. Learn how to connect to Wi-Fi and navigate some of the many applications available for your smart phone.

The class is free, but advanced registration is required by May 12.

For more information and to register, email dmikowski@grandtraverse.org or call 231-922-4911.
