Subject: What's Up With The Weather?

Traverse City – Is there a difference between weather and climate? There is a difference. It is measured in time. Weather consists of short-term changes in the atmosphere and climate is the average of weather over time and space. So, when we talk about climate change, we talk about changes in long-term averages of daily weather.

That's one question about the weather – do you have more? Back by popular demand, join Joe Charlevoix from TV 7&4 on Wednesday, February 7, 9 a.m., at the Traverse City Senior Center, 801 E. Front Street, as he talks about everything you always wanted to know about the weather, but never had a chance to ask.

Since 2002, Joe Charlevoix has forecasted the weather at TV 7&4, first as a weekend meteorologist and since 2005, as a morning meteorologist – 7&4 News Today with Melissa Smith, Tom Kramer and Meteorologist Joe Charlevoix airs weekday mornings from 4:30 a.m. to 7:00 a.m.

Joe Charlevoix's weather discussion is free, but advance registration is required.

For more information or to register, email dmikowski@grandtraverse.org or call 231-922-4911.

###

The Senior Center Network, part of the Grand Traverse County Parks and Recreation Department, offers diverse programs to older adults in Grand Traverse County. Thousands each year enjoy dozens of activities on a daily basis at locations in Traverse City, Acme, Fife Lake, Interlochen, and Kingsley. Business hours are Monday through Friday, from 8 a.m. to 5 p.m. For more information, call 231-922-4911, or visit www.grandtraverse.org/scn or our Facebook page.
