Subject: iPad Tips and Tricks

Traverse City – April 3, 2018 marked the eighth anniversary of the iPad. The iPad was selected by *Time* magazine as one of the 50 Best Inventions of the Year 2010. Since it was launched, Apple is now selling the 6th generation of its iPad. The first generation established the design precedents, some of which have persisted through all of the models, but with the newer technology today comes a slightly different learning curve.

If you have received a new iPad and everything is different, join Nancy Gonzalez on Wednesday, May 30, 9 a.m., at the Traverse City Senior Center, 801 E. Front Street, as she offers basic tips and tricks in the use of your iPad. In the second half of the session, she will answer questions.

As part of the Spectrum's ongoing commitment to help senior citizens bridge computer and tablet technology, a contribution from Spectrum helps cover technology course fees.

All abilities are welcome to join the informal class, but participants must bring their personal iPads. The class is free, but advance registration is required.

For more information and to register, email dmikowski@grandtraverse.org or call the new program registration number at 231-922-2080
